

## What you need to know

Careers in nutrition and health are growing faster than average compared to other occupations. Our diet programs offer training in food and nutrition with field experience to prepare our students for a variety of jobs. Our graduates are now working in schools, hospitals, community health programs, public health agencies, nursing homes, private practice and much more!

There is no application for the program. Apply to SRJC and register for classes each semester.

## Programs of Study

- Certified Dietary Manager Certificate – 2 semesters, full time
- Nutrition & Dietetics Degree – 4 semesters, full time
- Dietetic Technician Degree – 4 semesters, full time

## What people are saying about this program

"My favorite learning experience was presenting nutrition in elementary schools."

"What drew me to this program was the passion for helping people change their life through nutrition and the advancement opportunities at my job."
